Assessor Comments	A good quality line Yearling Heifers that are all frame making excellent backgrounders. Purchased as weaners from the well renown herd of the Marwood families from Kingston in South Australia, Heifers are from a majortley big framed Simmental/Hereford cross herd that are a base of Quality Woonalee Simmental Genetics, the different family run farms have started to use Pathfinder Angus Genetics through the herd over the past 6 years resulting in a black to Black baldie infused heifer in the offspring. Cattle Originally went too a lease farm at Booligal in south western NSW where it became hot quickly & water issues forced a move up to western NSW recently. Heifers are growing out well given the circumstances & the nutrition of the feed in pervious months, Given a more stable & constant good body of feed these heifers should continue to go forward. Grass fed & Antibiotic free. Bred from quality Genetics these heifers are ideal backgrounding cattle that can only go one way !!!
