Assessor Comments	A top quality line of softly coated mainly Angus steer weaners, Mid July to Mid September 2024 drop, calved over 9 weeks. These steers are the complete drop and annual dispersal. They have been weaned with nose rings to reduce any weight loss that normally occurs when yard weighed and received their 3 vaccinations. Odd steer had mud on head. They are HARDHAT and NOONEE Angus bloodlines. All the hard work done these steers are ideal to put on crop and either sell into trade, feeder or export markets.
