	These heifers were typical of young weaners, and worked through the yards easily despite being very wet in the forcing yard. They were no drama and will get better with maturity.

Assessor Comments	Despite being a small lot of 12 weaners - these are really neat 7 to 9 month old heifers. They are ideal to fed due to their Charolais content or grow out as future breeders. Sired by Diamond Angus and ANC Charolais Stud Bulls. They have plenty of growth for age, shape, bone and length. They have been bred out of large frame home bred cows (Angus X Charolais cows - Pentire Angus Blood) and will do well in a variety of environments. The vendors pride themselves on sire selection and it is testament to these young females. Easy to handle and would suit small or large operations. 6 Red, 3 Cream and 3 Grey heifers. They should suit being fed for domestic or heavy female export markets. However they have the genetics to mature into wonderful breeders. Arrangements can be made to have these heifers delivered to HRLX (Singleton Saleyards) for transport ease at purchase's expense. Vendor bred, Grass Fed and Antibiotic Free.
