Steers are good to handle, can drive thru them in the paddock and work off you in the yards

Handled With	On foot , Vehicles
Assessor Comments	One mark hereford steers that have done the growing, now just need finishing off. The are all in a feeder range if you wanted to take them onto grain, but would be also ideally suited to any grass program. The steers are dark in coat, fresh and healthy and would bounce with green feed or grain. They were all mouthed with the lead of the steers just breaking 2 teeth. There is a real opportunity to put weight quickly onto these cattle and have them finished for any grass market this winter.
