Assessor Comments	38 weaned June/July drop 'Blackrock' blood Angus heifers, with 5 heifers showing some shorthorn infusion. These heifers		

show good depth and length for age and have been backlined with Cydectin in April and yard weaned for 2 weeks in March. This is a good opportunity to purchase quality females in forward store condition that would suit any program and take advantage of the rising cattle market. Buyer's note: 7 heifers noticed to have white on bellies and udders.
