Assessor Comments	100 Angus Heifers , Sept/Oct 2024 drop. All heifers weighed full with a weight range 240 to 340 kg. 4% curfew applied to give a 280 kg ave. Heifers are the complete drop with none retained , weaned from an age group of cows. Heifers are well bred , well grown for age and present in strong store condition , certainly not buying excess fat. 200 in this sale and delivered run out the gate. Please note these are pastoral cattle and should be dropped in yards and you as purchaser make the decision on wether they need more weaning. Ideal future breeders , feeders , backgrounders , cattle will be offered with a realistic reserve. Any questions please ring.
