Assessor Comments	An excellent draft of EU Vendor bred Angus Steers off Minton LLC. Minton have focused extensively on improving the genetics and performance of their Angus herd by consistently purchasing high indexing Angus bulls off "Table Top Angus" basing their enterprise purely around their bloodlines. Minton LLC have a real focus on positive figures above breed average particularly on 400 & 600 day growth as well as all bulls selected for +3IMF. These Steers are genuinely only 8-9 mths of age and are bred from predominately large framed females as proven in their weight for age. These cattle come with an enormous reputation and are highly sort after by previous buyers particularly feedlots given the outstanding data we've received showing high growth rates and IMF figures of +4. Steers are both Never Ever and PCAS Accredited. Cattle come with the agents highest recommendations.
