Assessor Comments	Buyers, on offer is a nice line of 38 Weaned Angus Heifers. Heifers are sired by high-indexing Springwaters and Brookfield Angus sires out of Millah Murrah and Brookfield bld cows. Heifers are the lead draft with none retained. Heifers demonstrate good bone along with depth and length of body. They provide an ideal article to either continue to fatten, grow out or add to any breeding operation. Heifers have been weaned for 4 months, grazing on/off an oats crop and improved pasture. Heifers have grown out well considering the cold and dry autumn conditions. Buyers, please take note that 4 heifers are slightly older autumn drop heifers, with the remainder all late July/August drop calves. Please note, vendor has 22 Angus Steers in the same sale. For further information, please contact.
