| Assessor Comments      | Nice quality weaners in forward store condition. They have been running on minimal pasture and supplemented on pellets and hay for 6-8 weeks and are gaining weight well and starting to bloom. Plenty of frame to put weight onto given some quality feed.                                                                                                                                  |
