Assessor Comments	Watervalley offering 108 Angus steers Ave 244 kg LW Curfewed. Individually weighed presenting in fresh store condition as an even line drafted for quality and type. They have been subjected to dryer conditions, capable of fast compensatory weight gains. Weaned at different times from multiple mobs, the majority of the calves show youngness and freshness. With a very small portion showing as slightly older more rangy store frame. They show the typical Watervalley Black Angus characteristics and are a good line of backgrounder steers to grow into feedlot weight steers Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases.
