Assessor Comments	Offering 48 red tag PTIC heifers and young cows. These heifers averaged 470 kg live at assessment after an overnight curfew. These heifers are all young and are mainly branded No.3 with a few No.1 and No.2. The heifers were all vet PTIC 4 to 8 months a week prior to assessment and are identified with a full bang tail. They are a mixture of vendor bred and purchased in heifers that are going to calve outside the vendors normal calving. There were a few heifers at assessment that looked quite heavy in calf. Please note there are another 20 blue tag heifers in the same sale from the vendor that may help with trucking.
