	Well handled heifers, these heifers have been well exposed to humans, Stood quietly in a small holding yard for media, walked through the yards with minimal fuss			
Handled With	Bikes , Dogs , Horses , On foot , Vehicles			
Assessor Comments	Buyers this is a wonderful opportunity to purchased genuine classed in breeders. The McRae cattle hold a very strong reputation for performance and structural Quality. Every breeding female in their herds is independantly stucturally assessed for the first three years of their lives. They McRae cow herd is a moderate frame herd that packs plenty of growth in 400, 600 day traits without a big mature cow weight. The herd is focused on keeping carcasse figureds above breed average but also keeping above average for the fertility traits of gestation, milk & scrotal figures. These heifers are only being offered for sale as they have had a wonderful AI conception rate. Predicted calving date is around the 4th of August. Odd cow with slight blue eye scar. These heifers come highly reccomended.			
Assessor	Mathew Larkings (Level 1 Accredited)
