Assessor Comments	On offer are 82 Clear Springs Rennylea blood heifers joined to 3D Genetics Wagyu Bulls. Clear Springs has been consistently breeding cattle with a strong Rennylea bloodline and they have a clear focus on ensuring their IMF is above 3.5. The heifers show huge potential to grow into an ideal breeder with good length and frame. The temperament of heifers is exceptional and they are a pleasure to handle. The entire line is sired by 3D Genetics Wagyu which is recognized as one of the leading genetics in the feedlot industry. The heifers are due to start calving mid-late October for 9 weeks, don't miss the opportunity to secure some high performing genetics with a tight joining period that don't usually go to the open market . Buy with confidence. Please note, vendor has another lot in the sale.
