Vendor Bred	No
	Vendor has owned stock for 6-12 months
Stock History	Purchased ex A+ from Riverina as weaners. Cattle were bred in Tasmania. Vendors acquired originally to boost breeder numbers in their own operation. Circumstances have permitted them to only retain half of original mob.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	These heifers are Millah Murrah and Banquet blood. They were depastured with Hazeldean LBW bulls.

Grazing Conditions	Grazing on natural pastures of mature summer grasses and emerging winter herbage and medics.
	Returned same

Burr/Seed in Coat	Lucerne hay on necks and head of some heifers. May contain seeds from lucerne.
-------------------	--

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives		
Health Treatments	Vaccinated	01/10/2024	7 in One First Dose
	Deloused	04/04/2025	Easy dose
Chemical Residue	Nil Known		
Eligibilities	Russian Eligible Saudi Eligible		
J-BAS Score	6		

Vendor Comments	Originally purchased to build breeder numbers as weaners. Unfortunately we can now only retain half the mob due to less grazing country now available so offering the balance. Very good bulls used.

	These females were a pleasure to handle at assessment. They have been educated at weaning and are compliant in yards. Apart from the odd one getting agitated when mouthed they behaved well and were no problem to assess.							
Handled With	Bikes , On foot , Vehicles							
Notable Traits	Traits 3 Head Hazey eye one side 3 Head White on udder							
Assessor Comments	Presenting a very smart line of one mark Angus heifers which are PTIC to very good quality Bulls. These quality females are approx 20-22 months and are 5-7 months in calf at assessment. Vendors used very good quality selected LBW Hazeldean sires over this mob. There are 4 smaller framed heifers in the mob but predominantly medium frame with approx 10 heifers assessed as large frame for age. Approx 3 heifers have a slight hazey eye (see pics). They handled very well through the yards. I would describe most as forward store but not overdone to calve. These females are good enough quality for a breeder to include in an Angus programme and have all their breeding life in front of them.
