Assessor Comments	On offer is 118 PTIC Heifers being sold in two lots as a run out the gate. Heifers were purchased as weaners with the intention to join and keep. Heifers are PTIC to LBW Te Mania & Rennylea blood bulls. The overwhelming majority of the heifers were joined for 8 weeks and will commence calving at the end of July. Please note that some heifers in this lot were joined 2.5 weeks earlier and could therefore start calving from the 8th of July. These females have been managed with the intention to calve down and present in forward store condition. They are very quiet heifers and a pleasure to work with throughout the assessment. Please note the vendor is offering another 42 PTIC heifers providing the opportunity to put together 160 PTIC heifers with identical joining details.
