Assessor Comments	A great opportunity to purchase 19 x rising 5 to 7 year old Black Baldy Cows. PTIC in calf to selected Bannaby Angus Sires, the cows are offered to the market due to a strategic management change. The cows will calve from late August to late October. The cows are in forward to fat condition and will provide buyers with the opportunity to calve down large framed baldy cows to Angus sires. They are great cows to calve down and split or retain as high production breeders of the future.
