Paddock

Generally heifers were well handled. The odd heifer wanted to push through the race or was unsettled in the crush. Handle

Handled With	well in a larger yard. Bikes , On foot , Vehicles
Assessor Comments	A very well-bred line of EU accredited PTIC Angus heifers to calve mid-September/ October. From a high performing commercial herd, selection pressure is placed on fertility, carcass (IMF) & growth (400/600 day) to breed highly functional females and sought after steers targeting the feeder market. The herd is predominantly Barwidgee blood with recent use of semen from Millah Murrah Paratrooper, Rennylea Q213 & Chiltern Park Moe through an annual AI program. In calf to calving ease sires with average EBVs; BWT 1.66 (top 10%) & CEDir (top 10%) - see attached full list of joining sires used. These heifers have significant upside and will be a great asset going into a promising market. Please note; vendor also has 216 steers in the Weaner & Yearling sale today.
