	Slightly Stirry: 2 head		Slightly Stirry: 4 head	
	Well handled cattle that flowed very well through the yards and race. Kids kept back pens full and controlled the race.			
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Horses , On foot , Vehicles			
Notable Traits	Traits 8 Head Fly Bite 2 Head Single Blue Cloudy Eye			
Assessor Comments	4 Decks - 84 Young PTIC Cows joined to TEXAS Angus Bulls (Q266 & T129). This is a very good line of predominantly young cows, offering an excellent opportunity to retain as breeders or calve down and trade. Having averaged 1.28kg/day weight gain over the past 40 days since pregnancy testing. Vet tested on the 6th of May, all cows are 2-5 months in calf, expecting an October to December calving — which falls outside the vendor's calving window, hence being offered for genuine sale. The mob is made up of 87% 2-4 yrs and 13% 5-7 yrs, with only one cow weighing under 440kg. There are 8 head with fresh or old fly bite scarring (please see photos). These cattle are well-educated, quiet and easy to handle, having been mustered and worked through races and crush gates calmly, even by children. For any questions or further clarification, please contact the assessor.			
Assessor	Tom Boyle (Level 1 Accredited) Phone: 0400 018 007
