Assessor Comments	Here presents a nice line of PTIC Angus Cows presenting in forward store condition. These Cows were purchased from the Hay district with calves at foot and have really bounced ahead since arriving. These Cows are Scotts Angus bloodline and had exceptional calves weaned on day of assessment. Cows have done an exceptional job on previous calf and would complement any breeding program. Cows are PTIC to Bald Blair Angus sires. There is one younger heifer amongst these cows (4 tooth) the balance are 4–8-year-old with a fair percentage branded with a number nine. Buyers, please note six cows had old pinkeye scarring in one eye but didn't affect their sight in anyway, one cow had a completely blue eye please see attached photo. Buyers, please also note three cows have old fly scratch scarring around neck. Buy with Confidence.
