Assessor Comments	On offer we have cross bred cows preg tested 5 to 7 months in calf showing a great opportunity to take home 490.5kg ave. cows and calve down sooner rather than later. Most of the cows are crossbred cows but there are some straighter Charolais types in the mob. These cows were purchased from CPC in Queensland as cow and calf unit mid August 2024, the cows did a great job on their calves and have been rejoined to Angus and Charolais Bulls. At time of assessment these cows averaged 490.5kg very empty after a long walk to the yards the day before and a night in the yards. Cattle are mixed age and all age brand with majority being 3-5 years old with a few older ones in the mob. Please note vendor has 2 other lots in this sale and early delivery is available.
