Assessor Comments	On offer is a line of Waitara Angus blood heifers PTIC to low birthweight Waitara Angus sires (SO12 & SO53). To commence calving late July. These heifers are showing all the right characteristics to go on to be top breeders of the future and also great temprament. With good growth and depth of body for their age these heifers show that they should grow out to good medium framed cows. Please note 2 heifers with slight white udders.
