Handled With	Bikes , Dogs , On foot , Vehicles			
Assessor Comments	This is a good line of 55 PTIC Angus cows, offering the purchaser an opportunity to secure a productive group of cows that are Preg-Tested to calve in the spring. These cows are medium to large-framed. They represent an ideal trade opportunity, as most are in store condition, perfect for fattening or keep as future breeders. The top steer calves from this group were sold this week at Wagga Wagga, with the top draft weighing 380kg before reaching 12 months of age. The vet has preg-tested this consignment of cows, confirming they are within a 5-7 month window. Please allow for any calving that may occur slightly outside this range. All cattle purchased in 2022 from Auctionplus were 2-year-old PTIC heifers or heifers with calves. Additionally, 10 five-year-old cows were purchased in 2022. There may be the odd 8-year-old cow in this consignment, though we were unable to identify them during the assessment. A few cows show slight old pink eye scarring. Please call with any questions.
