Assessor Comments	7 PTIC Charolais cows that are ex the Kenmere Charolais stud herd, Spring 2018/19 drop cows rising 6-7 years of age. Joined to a combination of American AI sires (LT Badge, Dynamic & Combat) and Stud bulls these cows will produce magnificent calves. Cows were AI'd 12/11 with the backup bulls in 20/11 to 17/12 meaning these cows will calve within a 6-week period. These Cows are beautiful big matrons that show all the characteristics you will find in the Kenmere Charolais herd, large framed, quiet easy doing cattle that carry fat cover. They are only being offered for sale due to they are now surplus to requirement within the commercial herds, presenting an opportunity for anyone looking to start or add to a herd or someone looking for something different.
