Temperament	Yards Quiet: 46 head Slightly Stirry: 8 head	Crush Quiet: 46 head Slightly Stirry: 6 head Stirry: 2 head	Paddock Temperament not assessed in Paddock
	Cows were easy to handle through the yards, just some with a bigger flight zone that made their way to the front. Brought up from the back yards easily & by a single handler, just kept leading through the yards, looking for the next open gate. All led up the race well and walked on to the scales with minimal hesitation. A few were displaying some anxious behaviour in the crush, listed above as slightly stirry/stirry.

Assessor Comments	Very good line of proven pure Te Mania blood cows! It's a very rare opportunity to see 250 cattle of such top genetic quality offered in the one sale. Although these cows are currently in their working clothes, they are all by high marbling sires & have been repeat producers of high marbling, top shelf feeders & sale topping weaners for a number of years now. Only (regrettably) being offered for sale due to the tightness of the season in the Upper Murray, and the need to free up some paddocks to get ahead on the Spring sowing. These are females that present a rare and ideal opportunity to introduce some very well established genetics in to your herd, and get on the front foot with a line of top genetic proven breeders. From a herd with a very good reputation for feedlot performance, with the steer portion being highly sought after by repeat purchasers & top end feedlots. Buyers please Note. Vendor has another lot of the younger sisters in same sale.
