	Quiet young heifers to handle. Brought up by a single handler and were all well behaved, leading quietly up the race. A couple that were a bit anxious in the crush, just doing a bit of rocking and stomping (1 when she had to be caught to be buttoned) All exited the crush sensibly, and were very quiet to let back out of the yards to get videos.

Assessor Comments	Always lining up 400kg calves in the front lane at our Premier January Weaner Sales, is Pulitano Pastoral! And now is an opportunity to secure some of their tightly held genetics in this lovely line of well grown PTIC Heifers. Only offered for sale due to a change in operation & shifting over to a sole Autumn calving program. These heifers were selected out as the keeper draft for the Spring calving, before the season turned South & the decision was made to sell. Heifers are long, deep bodied, with heavy skins & very pretty faces, and all properly grown out prior to joining *It's also worth noting that the 2 L.B.W 'Heifer' bulls that have been used over these females have been used for a couple of years now, and never posed any problems, being very easy calving sires. These heifers would be a very nice line to calve down in the Spring and appreciate the genetic return to your herd, or on-sell some top class units in what's looking like a promising Spring market.
