Assessor Comments	Quality PTIC Spring calving Young Angus Cows. These Cows are 3 to 4 years old, a mixture of being bred by Vendor, AI bred from a Rennylea base herd, and purchased locally that are Paringa and Lawson blood. Joined to Angus Bulls NORQ776 & HSEQ22 from the 27/10 to 12/12, cows are due to calve at the end of July for 6 weeks. Vendor has made the decision to reduce numbers due to season and reduction in property size, regretfully offering these young proven breeders up for sale. In previous years females have always been given pre calving vaccinations. These cows present an opportunity to add proven breeders to an existing herd or begin a new spring calving program. Please note vendor has one other lot of 20 5-7 Year old cows in todays sale.
