Assessor Comments	A line of 40 AA, PTIC Cows that are due to start calving in mid August. These Cows are medium to large framed and range from 3 to 5 years old. The red tag cows are Vendor bred and are in calf with their second calf. The yellow and purple tag Cows were purchased locally roughly 18 months ago and are in calf with their third calves. These cows have all been preg tested in calf to top tier Mandayen Bulls that the vendor has paid top money for, giving these Cows every opportunity to produce a top quality calf. They are mainly docile cows with one cow stirring up while under pressure in the crush. This is a regretful sale as the Vendor is selling due to seasonal conditions. Please note the same Vendor has a line of 19 AA Steers as well as 26 AA Heifers on offer in the Weaner sale online. They are the Calves of these Cows.
