	2 Head white on udder		
	A very good line of PTIC registered Angus cows. These cows are presenting in strong forward store to prime condition and displaying good frame scores. This mob of cows were joined from 01/11/24 through to 30/03/25 to Dulverton Street Boss S230 and Texas Entice T861 and non vet contractor tested in calf 3-5 months. No expense has been spared on quality Australian Angus genetics, with great emphasis placed on the entire vendor herd to raise clean coated cattle that can handle the QLD tick area conditions. Base registered with Angus Australia, these cows have already made it through the tough two year old times and are in their prime breeding life. An ideal addition to any stud or commercial breeding operation or a perfect sized starter mob for any up and coming Angus youth wishing to start off on the right foot. Opportunity knocks!
