Assessor Comments	18 x 18 Cows and Calves — this represents an excellent opportunity to secure a line of sound, middle-aged breeders with strong maternal traits. All cows were mouthed at assessment and comprise three 6-tooth and fifteen 8-tooth's. Cows present with a sound mouth and no signs of excessive wear, Calves at foot are estimated to be between 1 and 3 months old, averaging approximately 150 kg. While the cows have not been pregnancy tested, they have remained continuously joined to the same Angus bulls since calving.
