Assessor Comments	Heifers are joined to selected Dunoon and Mundarlo Angus bulls to commence calving September with these heifers representing the second draft of PTIC heifers from a herd originally based on predominantly Millah Murrah blood females with sires introduced from Dunoon Angus at their Holbrook property. These heifers were moved from their Holbrook base twelve months ago as weaners and joined on their Upper Rolland Plains holding. Heifers have plenty of top end genetics behind them and present in store/fresh store condition with ample frame and given the opportunity will mature into volume breeders. Note buyer has the right to reject the Black Baldy heifer in this lot if not required. Vendor offering two lots of PTIC heifers and note photos/videos are of all 88 heifers being offered in this auction.
