Assessor Comments	On offer are some very well bred females that are in store condition and will gain weight easily on good feed. Cows are all PTIC to 'The Rock' Angus sires to calve August/September 2025. Cows were pregnancy tested back in March, we are willing to re preg test prior to cows leaving the farm if the buyer requests. The progeny from these cows have been hitting 500-600kgs at 15-16 months of age each year that we have had them. We mouthed 6 of the lighter cows and all had sound mouths.
