Assessor Comments	32 Angus Cows with 4th calf at foot, doing an excellent job of the calves. These cows were purchased by the vendor as heifers and have performed well year in year out. A Weeran angus bull has been back in since 27/5/25 and continues to run with the cattle (Can be seen in video) Calves weighed between 85kg to 134kg with the exception of 1 late drop calf at 50kg. First Calf born 15/3/25, 2nd last calf born 28/4/25. All treatments have been carried out and these cattle will go forward once on paddock feed something that they haven't had in quite a while with the conditions in Victoria in the past year. **Odd cow showing some white on bag (can be seen in photos) also odd cow with white at tip of the tail**
