Assessor Comments	A really productive line of middle aged Angus cows that have a tight joining, and have been very productive females in this operation since being purchased as top weaner pens in the Naracoorte Weaner sales. These cows have turned off exceptional progeny and had a calf every year since being joined as yearling heifers. They are all sound and will continue to be productive females in years to come. They are PTIC to a Millanda Angus Bull and are in fresh forward store to prime condition and 1 late calving cow was removed from the mob to keep calving tight. Five cows were mouthed and all were full with one being somewhat worn and is listed in the media section. Buyers can bid with confidence on these easy care easy doing medium framed females that have great genetic potential.
