Very Good	40%	Store	100%	C	5%
Good	50%			D	50%
Fair	10%			E	45%

Temperament

Yards	Crush	Paddock
Quiet: 96 head Slightly Stirry: 5 head	Quiet: 96 head Slightly Stirry: 5 head	Temperament not assessed in Paddock

The heifers flowed well through the yards and were a pleasure to handle. Please note a small percentage of the heifers became slightly agitated when being caught in the crush, however, quickly settle when pressure was released.

Handled With Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot , Vehicles

Assessor Comments Buyers, here is a very good quality 3 deck line of soft NSM Droughtmaster future breeder heifers. They display sound bone structure, good length and plenty of softness. These young females will fit straight into any commercial herd and breed high quality Droughtmaster cattle into the future. Majority Polled. The Baker family have been investing heavily in Glenlands genetics for over 30 years and have been exclusively purchasing and using Glenlands bulls in their cow herd since 2000. The heifers have a LWR of 251kg - 399kg and an average of 321.8kg at assessment after an 12 hour on property curfew. They are located in a cattle tick infested area and have been pre-treated to assist buyers with clearing ,however, it will be the purchasers responsibility to ensure all tick rules are followed. Please note there are 3 heifers in this lot that have a small amount of white under their flank and one heifer with a small amount of old fly bite scarring on her neck.
