Assessor Comments	On offer is a line of crossbred heifers, all of the hard work has been done with these heifers and they are ready to keep going ahead and will be perfect backgrounders for the future feedlot and slaughter markets while the majority also have the quality to become future breeders, Heifers are by a large range of breeds of bulls and cows, most of the heifers are showing the composite, Droughtmaster and Charbray lines with some very good crossbred heifers through them as well. Heifers were weaned early, and did it very tough with the dry conditions early on but with the late season they are picking up nicely now. Heifers were bred in the ticks of charters towers before being moved out west to clean country in September last year. A few heifers have slight fly bites, rub marks and warts. 124 of the heavier heifers from the same line are also available on auctions plus.
