Assessor Comments	A nice line of good quality, predominately Droughtmaster steers, some showing a Charolais influence and a small number show a soft Brahman type influence. All the hard work done, tidy heads very well handled and ready to pack on the weight. These fellas are in good store condition, in good health and with the fresh feed powering ahead. They have the quality to be backgrounded for the heavy feeder market or grown out to bullocks. Been mustered and handled with horse's dogs and bikes and have been through the yards a number of times since being weaned. They have always performed well when sold in the past. Treated on 29.4.25 with dectomax injectable.
