Assessor Comments

Buyers, good line of young heifers to put away on good feed for later on. Heifers have been bred in some lighter forest country north of Taroom and weaned early due to dry conditions at the time. Cattle have been weaned for 3.5 months and ready to go ahead on good feed. Heifers usually taken through to feeder weights for feedlots. For breed and type please see videos of mob. ** Note 5 heifers showing old ringworm marks**
