Handled With	Bikes
Assessor Comments	A line of predominately Angus heifers presenting in fresh condition. Heifers were all purchased as weaners and have been grown out and are ready to join to the bull of your choice or would make ideal feeder heifers. They were all injected with clomate on the 24.4.25 so will be empty at delivery. Heifers were good to handle at assessment with only a few slightly stirring in the crush but settling immediately after. Two heifers looked calfy at assessment but were preg tested empty.
