Assessor Comments	A line of Vendor bred Weaner Steers, consisting of 2 Brahmans and 9 Mole River Blacks (Angus, Black Simmental & Brahman). At Assessment the steers weighed 132-225kg to average 184kg full with a projected delivery weight of 175kg. Steers were weaned early due to a dry Spring and Summer, and are just starting to do with recent rainfall. Some Steers were recently cut and were still swollen - would expect this to be healed by delivery. Please note another line in same sale, along with the PTIC heifers in the Eastern States.
