Assessor Comments	A line of Vendor bred Weaner Steers, consisting of 3 Brahmans and 7 Mole River Blacks (Angus, Black Simmental & Brahman). At Assessment the steers weighed 233-326kg to average 278kg full with a projected delivery weight of 265kg. Steers were weaned early due to a dry Spring and Summer, and are just starting to do with recent rainfall. Some Steers were recently cut and were still swollen - would expect this to be healed by delivery. 1 Brahman Steer isnt present in the photos but was apart of the assessment. Please note another line in same sale, along with the PTIC heifers in the Eastern
