Assessor Comments	Buyers a good line of well bred weaned Angus Steers for sale. These Steers show good weight for age and present showing good frame with no excess condition and given the opportunity these Steers would excel on good nutritional feed. At assessment the Steers were showing signs of having heavy amounts of Buffalo fly on them and I would highly recommend treating Steers. These Steers show good opportunity for compensatory gains to be had and would be the ideal article for a backgrounding operation looking for Steers for an Oats crop. Please note the Steers that had the active eyes at assessment were treated at assessment and will be reassessed prior to delivery.
