Temperament	Yards	Crush	Paddock
	Quiet: 68 head	Quiet: 63 head Slightly Stirry: 5 head	Temperament not assessed in Paddock
	Five heifers were agitated when in the crush and exited quickly. However given they have just come off the cows and had limited handling they were generally good to handle. They were very good in the bigger yard and remained quiet when being photographed.

Assessor Comments	A line of vendor bred Angus & Angus Cross heifers. Heifers were weaned the night before assessment, they will be fed oaten hay and worked through the yards daily up until delivery. 72% Medium framed with the remainder large framed. They are sired by Booroomooka, Te Mania, Booragul & Hazeldean Angus bulls. Note two heifers with slight blue eye scaring in one eye. These heifers would suit to take onto domestic feeder weights, or the top 63% have the potential to be very good quality future breeders. Located 38km SW of Bingara & 74km from Narrabri. Vendor has retained approx 50 of the older heifers from this drop and these are the surplus heifers. Please note the lighter end of these heifers are also for sale as well as the brothers of these heifers.
