	cattle are well handled with dogs and horses. Weaners were drafted off mum and than redrafted at assessment. Generally the weaners were good to handle in the yards and crush
Handled With	Dogs , Horses
Assessor Comments	A very good quality line of steers sired by Dulverton, Glenavon & Wattletop Angus bulls from large frame cows. Grass fed & Antibiotic free. Steers show good growth for age, softness and sound confirmation. Steers are in fresh store condition allowing for good weight gains given the right opportunity going forward. Steers would ideally target feeder markets or alternatively be carried to heavier weights to process. Steers whilst being on mothers have been well handled with dogs and horses.
