Assessor Comments	* TO BE SOLD IN 6 LINES OF A RUN OUT THE GATE OF 1260 * On offer is 210 top quality composite ewe lambs. These ewe lambs were bred out of ewes purchased from the Salway stud in walcha, which is heavily based off of CASHMORE Oakley genetics and focuses on breeding an easy care, robust and highly fertile female. At marking ewes marked 175% lambs which given the tough start to the season is extraordinary. With no supplementary feeding during a tough year and that result at marking, this truly shows how easy care ewes are. These lambs mothers display terrific body , structure and plenty of milk. Weighing in at 35.3kg at assessment, lambs show high growth for age being only 7-13 weeks of age. Lambs will be weaned off of ewes the day before delivery. Ewe lambs are all up to date with health treatments. This is a fantastic opportunity to add some top line genetics to your flock in a very buoyant time in the sheep industry. * vendor has another 500 June/ July drop ewe lambs on offer *
