Notable Traits	Traits 1 Head horns			
Assessor Comments	Carnham is offering an exceptional line of 250 opportunity to secure a cracking line of ewe lambs. Backed by the very best genetics on offer, selecting rams from Cashmore & low footprint studs on worm resistance, growth, shedding & all maternal traits. The mothers of these ewes were sourced from Cashmore, low footprint and Kuch family. These are breed in extreme wet cold conditions and high stocking rate and perform very well. These lambs were lambs are only just getting over weaning and will only excel and reach joining weight on the right nutrition in the new year. This lot hold a very good genetic pool which are all born out of ewe lambs. Vendor is offering another 3 lots in same sale.
