Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.			
Assessor Comments	76 1.5yr old Cashmore Park Nudie (Aug/Sep drop 24) ewes weighed to average 55kg full, ewes were drenched on the 13/9/25 with Q Drench. They were not joined as ewe lambs nor have they been exposed to rams at any stage. They are a nice, neat line of ewes though are a bit longer in the wool given the current emphasis is being put into feet structure. We are expecting they will start shedding more once they have their first lamb. The vendor has been selecting for feet structure, growth and shedding they have been using Cashmore Park genetics now for 9 years, they have had a good run through winter and are in in great condition.
