Assessor Comments	Annual draft of Young sound breeders held for this sale. These ewes have come thru a high stocking rate system exhibiting hardiness & the ability to produce annually. Excellent ewes to found a self replacing flock on or use as prime lm dams.The Cashmore Park rams used were selected for Fertility, good early growth and high worm resistance. These ewes are good sound breeders that have withstood the rigors of the high performance, high intensity system they have come thru. Approx 95% of these ewes are ex stud ewes which makes them elite for their breed. Red taggers Sept 2022 drop s. All mature ewes Scanned this year at 185% to wean just in excess of 170%. NB These ewes will be shorn before delivery. Lambs were weaned 3 weeks ago so ewes are set to bound ahead. NB I have allowed -4 kg for wool and shearing process. NB 380 of these ewes in sale to be sold as a run out the gate.
