Assessor Comments	A real deal line of June calving Angus heifers. Put together as a larger line last autumn through the CTLX Blue Ribbon weaner sale series, these are the PTIC heifers from the first round of AI. In calf to the renowned and sort after Millah Murrah Paratrooper no expense has been spared preparing these heifers for their life ahead. All animal health protocols have been followed with a full Pesti and 7in1 vaccination program completed. The early predicted calving date of 21 June sets these ladies up to be highly productive early calvers throughout their careers. We have assessed these heifers as a mob of 100 and to maximise trucking and lot size flexibility we are offering them as one lot of 50 and another two lots of 25 delivered as even runs. We will also be offering another 100 of the same identical heifers on the same basis just run on a different property 25 kilometres further to the east. A chance to put together a substantial run of 1st class heifers in ideal condition.
