Assessor Comments	A very well bred line of Angus heifers PTIC, being sold run out the gate in a lot of 32 and a lot of 31, which are expected to commence calving at the end of August for 5 weeks. Heifers present very evenly as a group and are all frame. They stand in healthy fresh store to slightly forward store condition. Heifers are bred from a highly regarded Rennyalea herd and this represents an annual sale of their later cycling Angus females. Heifers are proven performers amongst previous purchasers and will mature into large frame soft easy doing females if shown the right conditions. They carry good temperament and come from a well managed operation. All 63 heifer were weighed to average 417.4kg, with a top weight of 474 and a bottom weight of 379.
