	Quiet: 30 head Slightly Stirry: 2 head	Quiet: 30 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	Cows showed very good temperament. All handled very calmly whilst assessing and they were quite content the entire time. Vendor always has an emphasis on working cattle with low stress and has culled over the years heavily on temperament.		
Handled With	Bikes , Vehicles		
Assessor Comments	Presented is an excellent line of PTIC Angus cows that are rising 4-5 years old. They were joined to high indexing Bongongo Angus bulls for a tight 6 week joining to commence calving beginning of July. Cows are defiantly front paddock quality and are regretful sale by the vendor. Cows only on offer due to the seasonal conditions and vendor having to travel long distance for work. They would be an outstanding opportunity for anyone able to acquire some very well bred young cows with their breeding lives ahead of them. Females are proven breeders, having reared a calf each year and its a testament to their fertility always getting back in with short joining periods. Cows are big volume females that have produced exceptional calves each year and have no reason not to do the same again given the right opportunity. This group of cows is the core in the vendors breeding herd and is a genuine dispersal as all old cows and lesser types were culled from the property earlier in the year.
